Chancellor / Governor Punjab

Chaudhry Muhammad Sarwar

Chief Minister Punjab

Sardar Usman Ahmad Khan Buzdar

Pro-chancellor

Raja Yassir Humayun Sarfraz

Minister for Higher Education, Punjab

Vice - Chancellor's Message

I believe that a planned social change, which is deep and broad yet sustainable, can only be cultivated through a consistent and effective delivery of good education to the masses. This in turn can only be ensured by well prepared and committed educationists whether in the roles of teachers, administrators, content developers or policy makers. The University of Jhang has the unique responsibility to produce, and maintain a steady supply of such capable professionals. Therefore, we commit ourselves to advance the study and practice of education including excellence in the allied knowledge areas and to develop comprehension of the interactions between them. While endeavoring to fulfill this commitment we emphasize on creating a culture where the future educationists learn and practice what they are supposed to demonstrate in terms of values & virtues as well as the abilities & attitudes, hence, we set our objectives as:

1. To study and practice contemporary theories, methods, technologies and mediums of teaching/learning and to prepare personnel for a variety of professional roles in the field of education.
2. To develop adaptations of the latest knowledge to local environment in terms of economy, culture, religion, languages or any other relevant parameters and at the same time conduct indigenous research in order to effectively contribute to the body of knowledge in the areas related with educational needs, practices and issues.
3. To participate in and contribute to the matters like educational policy, curriculum design & development, teaching/learning materials development, educational attainment standards, education delivery mechanisms and development of educational organizations etc.
4. To develop collaborative linkages with and provide support to local, provincial, national and international agencies mandated with provision, regulation and/or promotion of education and related services.

Prof. Dr. Shahid Munir
Vice Chancellor

Introduction to District Jhang

District Jhang is located in the Central Punjab at geographical coordinates: 31° 18' 19" North, 72° 19' 34" East and adjoined by Toba Tek Singh to the South, Faisalabad to the East, Khanewal on the South, Sargodha on the North, Khushab, Bhakkar and Layyah on the West. District Jhang spreads over an area of 6166 square kilometers and comprises of following four tehsils:

1. Jhang
2. Shorkot
3. Ahmedpur Sial
4. 18-Hazari

Most of the land is plain cultivable. It is predominantly agriculture based & the livelihood of more than 67% population is directly or indirectly dependent upon agriculture as its major source of income. The major & minor crops include cotton, sugarcane, wheat, rice, grams, barley, lentils including horticultural plants like citrus, mangoes, melon, watermelon etc.

Jhang is considered one of the oldest districts of the Punjab and land of two rivers (Chenab & Jehlum) with its rich cultural heritage. The Treemoon Head Works situated on the Chenab River is one of the best landmarks of irrigation system in Pakistan. It is also a master piece of engineering and architecture. The inhabitants of Jhang remained neglected in past with poor communication links, low income levels and access to higher education institutions etc. Jhang is considered to be a land of intellectuals which produced noble laureates like Dr. Abdul Salam, Ambedkar Khurana and Devraj Sikka Special Envoy from Indian Government but unfortunately district could not make advances on educational fronts in general and on higher education in particular.

The population of district Jhang is about 2.408 million having adult literacy rate of 47%. The Colleges of Jhang including adjoining districts both public & private sectors are producing about 85000 students per annum. Previously, the students seeking higher education either could not take admission due to financial constraints or had to move to provincial capital and other big cities far away from their hometowns. Similarly, picture of adjoining districts is also not very encouraging. The University of Jhang would cater for 145 colleges of Jhang including adjoining districts and some Southern districts of the Punjab. These colleges will serve as feeders and nurseries for the University of Jhang. The establishment of this University is one of the best higher education facilities for the citizens of Jhang and surrounding districts.

WELCOME TO THE UNIVERSITY OF JHANG

This Academic Walkway is working under the command, control and close supervision of Higher Education Department, Punjab Higher Education Commission and Higher Education Commission of Pakistan. The Syndicate of the University of Jhang comprises of elites of Higher Education Sector, both from public and private sector universities of Pakistan as well-known parliamentarians and renowned and distinguished citizens.

Introduction

Literature a root of knowledge and edification, is basically the amalgam of education, civilization and discovery, displayed aesthetically in the portrait of art and creativity that entertains and indoctrinates the souls. English Literature refers to the study of texts written in English Language round the globe. The English Department of University of Jhang promises academic excellence, innovative career development skills, and character building opportunities. The department also offers a remarkable pedagogical environment which aids to polish competence and to frame exceptional analytical skills. It solely aims to equip the students with a dense knowledge of language and literature according to the world renowned techniques. All the faculty members are diligent and ensure to support, guide, train, and to shape the minds of pupils according to the individual needs. Education is light and the faculty of English Department serve as a lighthouse to illumine the passage of the students towards incredible success.

Introduction:

Mathematics is of ever-increasing importance in science, technology and the department plays a principal role in the education and research at University of Jhang. In this era of emerging educational trends, mathematics has come to be recognized as the language of science and the key to understand the mechanics of our world. Mathematics is oldest academic subject and is one of the most mature and well developed disciplines of basic sciences. Rigorous concepts in engineering, management sciences, social sciences, medicine and physics can be easily countered with the help of mathematical techniques.

Mathematics at University of Jhang is currently thriving, both in terms of teaching and research. The department of mathematics had its inception in 2019 with the introduction of regular undergraduate program, BS Mathematics. The greatest strength of the mathematics department is a team of enthusiastic students and dedicated teachers. The faculty co-ordinate the co-curricular, extra-curricular and extension activities of the department and caters students interest in mathematics beyond the syllabus. We are deeply committed to superior research in mathematics and students are trained in analytic thinking and reasoning. Currently, we have two undergraduate specialties, namely, pure mathematics and applied mathematics. Department recruits undergraduate students by the general category of mathematics and does not stipulate their specialty in the first three years but strengthens the basic training for them. In the fourth year, it divides them into different specialties according to mental characteristics of different students. Mathematical majors can develop programs in many different ways and pursue career paths in actuarial science, cryptography, information technology and mathematical education.

Whether you're a prospective student trying to find an undergraduate degree program in mathematics that supports top quality teaching, I hope you may browse our web content and get the required information. If you have got any queries, please don't hesitate to contact department of mathematics, University of Jhang.

Introduction:

Today the subject of Sociology has got significant worth. With the invasion of technology and industry, dynamics of society and social system are changing rapidly. In the modern era of information and communication technologies, the nature of human relationships and interaction has become significantly complex. Though, the development is a positive phenomenon but still it generated various social issues i.e. racism, gender discrimination, civilization clashes, terrorism, social and economic conflicts, inequalities etc. The consequences of these issues have challenged the human survival. The Department of Sociology, University of Jhang, aims to create sociological imagination and logical reasoning about these social issues.

Sociological knowledge makes the individuals able to analyze the various perspectives of human group life and relationships. It provides the opportunity to the learners of enhancing their skills of research and analytical techniques. Sociology plays its significant role in social development and welfare sectors, by providing assistance in form of research and analysis. The department of Sociology puts efforts to make its students able to serve for the wellbeing of society by imparting social and cognitive skills.

We educate the students with special focus on their socialization and professional training. The department has well qualified and dynamic faculty with highly skillful and professional background. Department has also provided a sound academic and research environment for students by facilitating them with equipped classrooms and organizing seminars and workshops. In addition, internship opportunity with international and national organizations working in the field of social development is provided to the students in order to blend the academic knowledge with practical skills. The department of sociology has offered Bachelor Degree program in Sociology and aims to introduce MPhil program in near future.

Introduction:

Statistical methods and the application of probability theory are essential to the understanding of data and underlying processes in a very wide variety of fields, including health sciences, economics and finance, social science, government, engineering, biological and physical sciences. Statistical computations contribute as a major player to meet the demand of the students and requirements of extended research activities in the graduate and post graduate courses. Statistics is considerably more applied and vocational than many other courses. It aims to produce students who can immediately work as applied statisticians. Whereas all theoretical concepts are covered, the emphasis throughout is on applying and adapting it to real-life circumstances. The analysis of real data sets constitutes the core of the courses and pivotal role of the computer as a powerful tool in modern Statistics is constantly emphasized throughout the programs being offered. Weekly assignments/practical work makes extensive use of standard statistic packages including Minitab, SPSS, EViews, R, Mathematica, Design Expert etc.

Introduction:

Islam is the official religion of Pakistan and is a scholarly subject. At the same time, its teachings are essential for human training. That is why Islamic education is taught as a compulsory subject in the educational institutions of Pakistan and the subject also offers a high level of specialized education. In view of this, the University of Jhang also laid the foundation for Islamic Studies in 2019.

Introduction

Economists deal with scarcity and choices. In a society where resources are limited and cannot meet the claims put upon it, economists suggest guidance for steering the economy to hit utmost desired goals utilizing limited means with a prime objective of social welfare in all decisions. Economic theory provides powerful and often surprising insights into individual and social behaviors through providing a better understanding of a variety of contemporary issues. A part from providing the theoretical based knowledge about the subject, the economics department also aims to equip students with practical techniques and advance methodologies for strengthening and fulfilling the economic needs of society.

Introduction

Communication and media studies have gained vital importance in this age of science and information technology. A nation cannot safeguard its domestic and foreign interests, and get its due status in the globe without using its communication channels effectively. Advancement in information technology has made the world a global village. So, it is the need of the hour to give special focus on mass media education. Although Mass Communication is an emerging discipline, yet, it has got paramount importance in recent times. Media is playing a vital role in promoting different ideologies both in the domestic arena and around the globe.

THE FEE STRUCTURE

The University of Jhang is gift by eminent citizens, sincere parliamentarians of Jhang district, Government of the Punjab and devoted, patriotic and highly qualified and elite team of scholars. The residents of Jhang district and surrounding towns are mostly peasants and belong to white-collar class. The incumbent Government of the Pakistan is committed to educate every citizen of Pakistan and provide the access of **Higher Education** to the poor citizens of our nation. No, doubt the other public sector universities in Punjab as well as in other provinces of Pakistan are charging very high tuition fee to make their institutions self-sustained universities. In spite of that, the fee structure of this university is affordable and deliberately kept less than other universities. To achieve this objective, Syndicate of the university decided in its 1st meeting held on 12-09-2017 to keep the fee structure of this university ten percent (10%) less than the fee structure of Government College University Faisalabad. The fee structure is enlisted on the next pages.
